

Pass the Baton – Team Relay

1. The first rider starts behind the start/finish line (A)
2. The second rider starts behind the start/finish line (B)
3. Rider A will weave as shown through the cones and cross the line at B's end of the ring.
4. Rider B will weave back through the cones across the start/finish line (A).

No batons are required, rider B may start when the nose of Rider A's horse crosses the line.

This is not to scale, and there may only be 3 cones instead of 4.

If possible, two teams may compete at the same time if ring space allows, as shown.

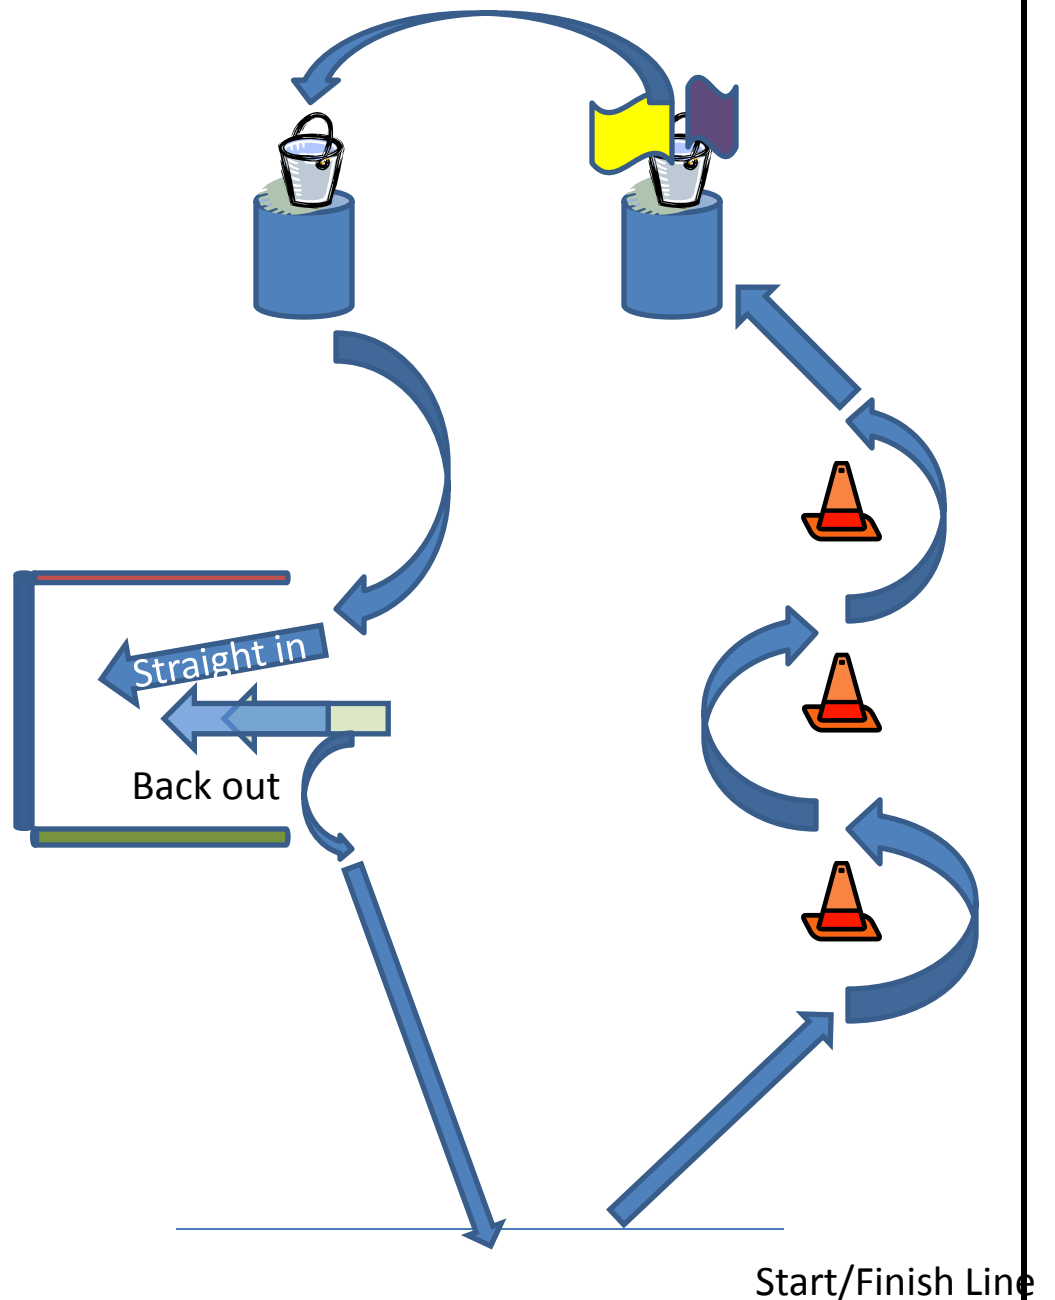

Obstacle Course

There are 3 obstacles on the obstacle course.

1. Begin by going to the outside of the first cone and weave through them.
2. Go to the right side barrel, pick up a flag from the bucket.
3. Go to the left side barrel and place the flag in the bucket.
4. Go into the 'stall', then back out of the stall.
5. Head to the finish line, done!

Please note this is not to scale but the locations and pattern will be as shown.

Barrel Race

Although this diagram depicts the horse and rider starting toward the right-hand barrel #1 first, it is also allowable to start toward the left and pass inside of barrel #2 to start.

Note: Drawing not to scale. All 3 barrels are spaced in a triangle roughly 30-35 yards apart.
